Sanket Chopade

DevOps Engineer | AWS | Kubernetes | Terraform | Docker | CI/CD
| Linux | DevSecOps | Cloud Infrastructure | Automation | Open to
Opportunities

Nagpur, Maharashtra, India

Summary

DevOps Engineer with hands-on experience in AWS cloud infrastructure, Kubernetes, Terraform, Docker, and CI/CD automation. During my internship at Hisan Labs, I worked on cloud-native applications running on AWS, contributing to infrastructure provisioning, application deployments, monitoring, and operational workflows. I have practical experience with Amazon EKS, Jenkins, GitHub Actions, Argo CD, Prometheus, Grafana, Datadog, AWS CloudWatch, SonarQube, and Trivy. My areas of interest include Infrastructure as Code, Kubernetes, GitOps, DevSecOps, Cloud Automation, Platform Engineering, and Site Reliability Engineering (SRE). I enjoy building scalable, reliable, and secure systems while continuously improving deployment processes and operational efficiency. Technical Expertise: • AWS (EKS, VPC, IAM, RDS, S3, ALB, CloudFront) • Terraform & CloudFormation • Kubernetes, Docker, Helm • Jenkins, GitHub Actions, Argo CD • Prometheus, Grafana, Datadog, CloudWatch • Bash, Python, Linux • SonarQube, Trivy, DevSecOps Practices Currently seeking opportunities as a DevOps Engineer, Cloud Engineer, Platform Engineer, or Site Reliability Engineer where I can contribute to building reliable cloud infrastructure and automation solutions. Open to connecting with recruiters, cloud engineers, DevOps professionals, and technology enthusiasts.

Experience

Hisan Labs - Hisan Labs Pvt Ltd
DevOps Engineer Intern
September 2025 - Present (10 months)
Pune, Maharashtra, India

- Provisioned and managed AWS infrastructure including Amazon EKS, VPC, IAM, S3, ALB, CloudFront, and RDS using Terraform.

- Designed and maintained Jenkins CI/CD pipelines integrated with GitHub for infrastructure and application deployments.
- Developed and modified Terraform modules to provision and manage AWS resources through Infrastructure as Code practices.
- Containerized applications using Docker and deployed workloads on Amazon EKS using Kubernetes best practices.
- Configured Kubernetes Deployments, Services, Ingress, ConfigMaps, Secrets, RBAC, and Horizontal Pod Autoscaling (HPA) for scalable application deployments.
- Implemented GitOps workflows using Argo CD to automate Kubernetes application delivery and maintain environment consistency.
- Built monitoring and observability solutions using Prometheus, Grafana, Datadog, and AWS CloudWatch.
- Integrated DevSecOps practices using SonarQube and Trivy for code quality and vulnerability management.
- Automated operational tasks using Bash and Python scripting.
- Managed AWS IAM users, roles, and policies while following cloud security best practices.
- Collaborated with development and DevOps teams to support cloud-native application deployment and operations.

Cloudblitz | Powered By Greamio
 Cloud & DevOps Engineer Trainee
 June 2025 - September 2025 (4 months)
 Nagpur

- Built CI/CD pipelines using Jenkins and GitHub to automate application build and deployment workflows.
- Deployed and managed containerized applications using Docker and Kubernetes.
- Worked with AWS cloud services and monitoring tools including CloudWatch and Datadog.
- Automated Linux operational tasks using Bash scripting and cron jobs.
- Gained hands-on experience with cloud infrastructure, automation workflows, and DevOps best practices.

AD Infocom Systems
 Design Internship
 January 2025 - March 2025 (3 months)
 Nagpur

- Worked on 3D part modeling, assemblies, and technical drawings using SolidWorks.
- Assisted in design optimization and drafting for manufacturing.
- Contributed to engineering projects involving CAD design, GD&T, and BOM preparation.
- Developed an understanding of engineering documentation and design processes.

Met B Aviation Pvt Ltd

Intern

February 2024 - March 2024 (2 months)

Kerala, India

- Trained on aerospace documentation standards including ATA 100, ASD S1000D, and Simplified Technical English.
- Worked with Aircraft Maintenance Manuals (AMM), Illustrated Parts Catalogs (IPC), and Service Bulletins.
- Gained experience using Arbor Text Editor for technical publication development.
- Developed knowledge of aerospace documentation processes and industry standards.

1Stop.ai

Frontend Web Development Intern

August 2023 - September 2023 (2 months)

India

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Used Git and GitHub for version control and collaborative development.
- Participated in debugging, application enhancement, and deployment activities.
- Built a strong foundation in software development workflows that supported my transition into DevOps and cloud engineering.

Education

Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur

Bachelor of Technology - BTech, Aeronautical/Aerospace Engineering

Technology/Technician · (December 2021 - June 2025)
